Relevant Coursework: Object Oriented Programming, C and Unix Programming, Data Structures, Algorithms, Discrete Mathematics, Software Development Principles, .Net Web Applications, Operating Systems.

SKILLS

Languages: Java, C, HTML/CSS.
Software/Technologies: Git, Bash, Vim, Intelli J.
Soft-skills: Teamwork, Collaboration, Communication.
Operating Systems: Mac OS, Linux.

PROJECTS

Secret Santa | *C#/ASP.NET, HTML, TailwindCSS, TypeScript*   Check it out!
- A Secret Santa app built to generate random gift assignment's within a group of users.
- Application is capable of doing basic Create, Read, Update, And Delete operations on different members.
- Built Unit tests that cover the functionality of the CRUD operations. As well end to end test's that verify the functionality of the website.
- Utilizes MVC and Git Continous integration.

Discord Bot Template | *Discord.js, JavaScript, Node.js*   Check it out!
- A Discord bot that aid's in moderating Discord chat rooms.
- A personal project of mine that was created to replace an old Discord bot that I wrote in python. As well as help introduce me to Node.js and JavaScript.
- Implemented features for kicking members, banning members, grabbing member's profile pictures, giving out roles, and much more!
- The program also organizes each command by it's purpose. Each command is given it's own file, unique name, description, and usage information for use along with the help command.

Personal Website | *HTML, TailwindCSS, Node.js*   Try it out!
- Utilized HTML to create a 'about me' landing page that includes quick links to my projects and a small about me section.
- Utilized TailwindCSS to add a visual appeal and give it a much more modern look.
- This is a long term on going project. As I grow as a developer and learn new front end development skills. I'll add new features and technologies.
- Hosted through GitHub Pages.

EXPERIENCE

Office Assistant: Records and Registration   June 2018 – June 2021
Eastern Washington University   *Cheney, WA*
- Answering student's and parent's questions about registration at Eastern Washington University.
- Taking phone calls and answering questions in a timely manner.
- Phone calls included walking students through the Eastern Washington University home page, resetting account passwords, and resolving class registration issues.
- Day to day operations also included scanning and organizing student paperwork.
